

# Shareholder Announcement

17 July 2018

Longevity Groups Australia announces that after conducting an extensive sales campaign to sell The Mornington Retirement Village, a suitable buyer has not been identified.

It is unfortunate that the retirement village sector is currently experiencing turbulent times and there has been a loss of investor confidence in the sector in general.

The Board has resolved to take The Mornington Retirement Village off the market and work towards improving the financial and operational performance of the Village.
