## Shareholder Announcement

### **Longevity Group Australia Ltd (Company) Likely Impairment - Half Year Results Dec 2020 Closure of Low Volume Market**

As part of our ongoing strategic review and with the support of Longevity's Auditors it is likely that an impairment of unsold property values will be necessary. Whilst we procure independent expert valuation advice we have decided to suspend trading on the Low Volume Market.

We expect this to be short term in advance of releasing interim financial results on or before 15 March 2021.

The Company will provide further information in line with our disclosure obligations.
